HON. JOHN E. MITCHELL REPRESENTING WAR DEPARTMENT SPEAKS IN INTEREST OF WAR CAMP COMMUNITY SERVICE AT ST. JAMES CHURCH.

Some forty or fifty citizens of the city met at Saint James A. M. E. church, Thursday night to hear Hon. John E. Mitchell representing the War Department's War Camp Community Service who is traveling in interest of the government.

The honored visitor spoke at length upon the immediate establishment of a community center in Dallas for the benefit of returning soldiers which would enable the good citizenry as well as the government to aid in keeping intact the morale of our soldiers as they return to civilian life.

The distinguished visitor discussed fully other cities where this work has been established. The government has set aside a fund of \$4,000 for its establishment in cities where much danger to the morale of our boys lurk. It is aware of this fact and is endeavoring as the boys return from "over there" to make the War Camp Community Service center their headquarters and so to the end is soliciting the interest of the populace in its maintenance.

Those present endorsed the movement after which the following committee was appointed: Mrs. J. Caldwell Frazier, Mrs. S. Rice, Mrs. Bell Reynolds, Mrs. L. R. Mayes, Mrs. Hallum, Mrs. F. L. Harris, Wm. P. Vaughn, Dr. A. L. Runyan, John H. Dixon, E. W. D. Welch, Dr. R. T. Hamilton, G. L. Boswell, Alonza Beall and S. T. Simpson. A subcommittee was also appointed to do detail work.

TOWN BEING FLOODED WITH RETURNING HEROES FROM "OVER THERE."

On every street practically one can see the woolen clad heroes of Uncle Sam's returning home fresh from the front. Some having served in trenches and some having been held in reserved awaiting their time to have been given a chance to split old Fritz. Among the late arrivals having been discharged at Camp Bowie is Private Ollie Lewis and many other names whom the reporter failed to ascertain. Private Lewis says that he will give out his full vision of the things encountered on the field of battle.

HEALTH.

(Southern Publicity Committee) Raleigh, N. C.—For a year North Carolina has been enlisting its colored citizens in a systematic war on disease among Negroes. Dr. McBrayer, Chief of the Bureau of Tuberculosis, is in charge of the work. A State Director of Educational and Health Work among Negroes has been appointed, who in 1918 organized 410 Negro Community Leagues, with a membership of over 15,000.

The leagues have a standing committee on tuberculosis which visits every case, instructs the family in methods of cure, and how to avoid contagion. It oversees the carrying out of these instructions, and also attends to general sanitation. Other committees give special attention, as needed, to cases of typhoid, measles and other contagious diseases. One committee is charged with educating the colored neighborhood in regard to water supply and sanitary outhouses. Other committees look after school sanitation, and promote pig and canning clubs, gardening, home improvements, etc. The secretary fills out monthly and sends to Dr. McBrayer a printed report provided by the State Board of Health for listing births and deaths; all cases of illness, with names of attending physicians; sanitary closets installed; school and home improvements secured through the league's activity; public meetings held, etc.

Last year 494 public meetings were held, with white and colored speakers, reaching nearly 60,000 Negroes. 112,000 more were reached by the distribution of literature provided by the State Board of Health, and by visits of league members. The Negroes have responded so well to these efforts that the work has been enlarged for the current year makes its own strong appeal to the common sense of the state as well as on humanitarian and economic grounds its success is largely in debt to the state policy.

This broad constructive policy pursued through years of building up public schools for Negroes in city and country, and so securing an enlightened Negro leadership. North Carolina realizes that the health of the state must be built up regardless of race, or both races must suffer physical and economic depreciation.
